RELEVANT EXPERIENCE

- Lowe's Home Improvement (Customer Service Associate, 2017-Present)
 - Managed maintenance on self-serve check-out machines within a retail store.
 - Duties included sanitizing the machines, refilling receipt paper and rebooting malfunction systems for a quick recovery.
 - For more complex mechanical issues, I contacted the company's IT department and followed their troubleshooting instructions through the phone.
- TransLogistics, LLC
 - Designed and built a website for a veteran owned translogistics firm.
 - Multiple meetings were held with the client and guiding them through the process of the design and creation of the website.

- A custom logo for the business was also digitally illustrated with the use of Adobe Illustrator. Adobe Photoshop was used to modify the size of image files to ensure proper a composition of the website
- All files and updates were stored in the control panel of the web hosting service used for the website. Git and GitHub were used to preserve a record of the history of the website's modifications.

WEBSITE PROJECTS

- [Apple-Facts Website](#)
 - Developed an interactive website featuring information on nine varieties of apples.
- [Sweety Treats Website](#)
 - Utilized Bootstrap to build a simplistic website for a fictional bakery shop in which each item, along with its description, was presented in a grid style fashion.
- [TransLogistics, LLC](#)
 - Created a multi-page website with an automatic picture slider and fully functional contact form for potential customers of the business.
 -
